

CISRS Scaffolding Awareness

Course Duration: 1 Day

Aim and Objectives:

This 1-Day training course has been introduced to provide those who use scaffolding as part of their work, or site management personnel who have responsibilities for scaffolding operations, with a detailed introduction to scaffolding best practice and guidance.

It will provide attendees with a greater understanding and appreciation of the potential dangers of working at height on scaffolds and enable them to identify the core components of a safe scaffold.

This course will also provide the delegate with an insight into scaffold best practice and what they should expect from their scaffold contractor. It will not provide the delegate with any knowledge relating to scaffold inspection.

LTC Training Services Ltd also offers the accredited **CISRS Basic Scaffold Inspection 3 Day Course** which should be undertaken by those wishing to achieve the CISRS Basic Scaffold Inspectors card and inspect basic and some simple designed scaffolding structures in traditional tube & fitting.

Course Content:

- **Introduction & Welcome**
